

Portuguese inflows into France reach new low in 2018

2020-05-26

In 2018, 8,055 Portuguese entered France, according to data from the new series provided to the Observatory by the Institut National de la Statistique et de Études Économiques. This figure represents a decrease of 3.1% when compared with the previous year. +

After a maximum of 19,658 entries on French territory in 2012, the number of Portuguese emigrants to France has been decreasing: -4% in 2013, -22% in 2014 and less -21% in 2015. Despite a slight recovery in 2016 (+7%), a new phase of decrease began in 2017 and continued in the following year (-32.8% in 2017 and -3.1% in 2018). Therefore, 2018 was the year in which fewer Portuguese entered that country in the current decade. Inflows into France seem to have followed the general trend of Portuguese emigration flows.
